- General Computer Literacy: Data entry, internet applications, email correspondence, basic troubleshooting

CERTIFICATIONS

- Python and MySQL
- Web Development

PROJECT

The Best of the Best: A Study of Top Translation Tools for Breaking Language Barriers

This study evaluates and compares the performance of mobile applications for translating between English and Tamil, identifying the most effective translation tools available.

- Accuracy & Context: Evaluated translation accuracy, grammar handling, and how well each tool preserved meaning, idioms, and tone
- Usability: Compared interface simplicity, voice input/output support, and ease of use for non-technical users
- Speed & Accessibility: Assessed response speed, offline availability, and mobile vs. desktop performance
- Outcome: Compiled findings into a clear comparison summary, recommending the most reliable tools for accurate day-to-day English–Tamil communication
